

# Center for Terrorism Law

## Monthly Activity Report

### August 2009

1. The Center for Terrorism Law is developing a Cyber Studies Department to better approach the complex study of legal issues associated with cyberspace. The Cyber Studies Department will be housed at the Center for Terrorism Law. The chair for the Cyber Studies Department has not yet been identified and resources are being developed to fund the position.
2. The Center for Terrorism Law is developing the agenda for its next national legal conference which will be entitled ***Cyber Security: Legal and Policy Issues for National Security, Law Enforcement, and Private Industry***. The first of its kind conference presents a unique opportunity for leaders in law enforcement, Department of Defense, Department of Homeland Security, and the business community to receive critical information on the full range of issues – legal and policy – related to cyber security. Because of the nation’s dependence on the cyber world, cyber security is a matter that directly impacts all levels of society. Not only will internationally recognized subject matter experts provide the latest developments regarding the threat posed by cyber attacks as it impacts on national security, law enforcement, and the business community, the symposium will also concentrate on identifying all of the myriad legal and policy challenges associated with each of these fields of interest. In addition, participants will receive actionable information regarding cyber security solutions and future trends to include the need for increased cooperation between DOD, DHS, law enforcement, and the public sector. The conference will be held from March 18-19, 2010, at St. Mary’s University School of Law, San Antonio, Texas. Registration information can be found on the CTL website [www.stmarytx.edu/ctl](http://www.stmarytx.edu/ctl) or via Ms. Faithe Campbell [fcampbell@stmarytx.edu](mailto:fcampbell@stmarytx.edu). Seating is strictly limited to 200.
3. The Center for Terrorism Law continues to coordinate cyber training initiatives with the Center for Infrastructure Assurance and Security (CIAS) at the University of Texas San Antonio, Texas, as well as the Cyber Innovation and Research Consortium, San Antonio, Texas.
4. Professor Addicott conducted the following media events and public speeches for the month of August:
